

~~CONFIDENTIAL~~

15 April 1957

MEMORANDUM FOR: Mr. D. J. Clinton, Department of State  
Lt. Col. D. H. Smith, Department of the Army  
Capt. R. E. Styles, Department of the Navy  
Col. Sam A. Carnes, Department of the Air Force

FROM: Chairman, NIS Committee

SUBJECT: Analysis of NIS Production — Third Quarter FY 1957

1. The enclosure shows the production accomplishment of each of the contributing agencies at the end of the Third Quarter, FY 1957.

2. It will be noted that in order to fulfill scheduled requirements for Fiscal Year 1957, the total production per month would have to average over 100 sections during the period April-June. The Department of State is responsible for a large majority of the deficiency with an average of 8 sections completed per month during July-March and an average of 52 sections required during April-June to complete sections now in default and the scheduled requirement for the period.

3. A very heavy flow of NIS material to OBI in the final quarter of FY 1957 cannot be avoided if there is to be substantial attainment of the production goal for the year. Contributors are urged, therefore, to take such steps as are necessary to assure a consistently high level of production throughout each of the remaining three months of this fiscal year in order to overcome past production deficiencies in addition to fulfilling scheduled production for this period.
